

How We Help Global Firms Cut Through Market Data Complexity

As market data ecosystems become more fragmented and expensive, the pressure to optimise spend and govern effectively has never been greater.

At BCG Expand, we help financial institutions bring clarity, control, and cost-efficiency to one of the most complex and costly areas of their business.

Taxonomy and Data Catalogue mapped to inventories.

We help firms organize
and map their market
data to improve
transparency and access
enriched data sets.

Smarter, more cost-effective data discovery to aid strategic decision making.

We identify overlapping and alternative data sources to facilitate the implementation of strategic decisions.

Greater operational
efficiency and
reduced
administrative
burden.

We simplify market data
processes, reduce
manual work, and free
up teams to focus on
higher-value tasks.

Improved reporting
and governance
enriched with
benchmark data.

Our tools and
benchmarks give firms
better visibility and
control over their data
spend and usage.

Explore how we can support your market data strategy.
